NOTICE TO SHPOs AND STATE CLG COORDINATORS

I have selected Hampton Tucker to fill the vacancy in the National Certified Local Government (CLG) Program Coordinator position. Ginny Freeman, who previously held this job, retired at the end of January. SHPOs should submit all future proposed CLG certifications and decertifications, revisions to State CLG Procedures, and other CLG related items to Mr. Tucker's attention.

Hampton has previously worked closely with local community preservation groups through the American Battlefield Protection Program, and for the past three years as a Grants Management Specialist on my staff. He has a Masters Degree from the University of Virginia in Charlottesville. His current telephone number is 202/343-3580, and his current fax number is 202/343-6004.

Note that Heritage Preservation Services (including State, Tribal, and Local Programs) is scheduled to move to 1201 Eye Street, N.W., 6th floor, Washington, D.C. 20005 on September 6, 2002. This street address should be used for Federal Express, United Parcel Service, Airborne Express, and other commercial delivery services after September 4th.

Our telephone numbers and fax numbers will change after September 5th. We anticipate a few days of possible disruption in telephone, fax, and e-mail service. Please bear with us. We will try to send a fax in early September listing our new telephone numbers. After September 6, 2002, there should be a voice mail recording on our old telephone numbers that gives our new telephone numbers.

Joseph T. Wallis
Chief, State, Tribal, and Local Programs
