PLENARY SESSION #1
WEDNESDAY, JUNE 6
Some consider Tim Tielman a champion of preserving the city’s urban fabric; others consider him a roadblock. As the executive director of the Campaign for Greater Buffalo History, Architecture & Culture and principal of The Neighborhood Workshop, Tielman has been involved in every preservation issue in the city of Buffalo for the past 25 years, usually as an advocate and sometimes as a plaintiff. Tielman will be discussing the issues surrounding preservation in Buffalo and how even the smallest towns in Oklahoma can benefit from these same approaches.

PLENARY SESSION #2
FRIDAY, JUNE 8
The Oklahoma Department of Commerce, Oklahoma Main Street Center, is sponsoring Dan Carmody’s participation in the conference. Dan Carmody started his career as a bar owner in Rock Island, Illinois, during the 1970s when Rock Island was a true Rust Belt. The business ran into trouble, but Carmody used the experience to help other small businesses. Carmody used his experiences to take over Detroit’s giant Eastern Market, a 126-year-old market that operates as a freestanding non-profit organization with revenues of more than $6 million. As other cities’ food-production districts have shrunk, Dan has focused on expanding the market, which serves 2 million people a year, to draw food businesses and entrepreneurs to the city. Carmody will discuss how his expertise helped to expand the hold of the Eastern Market on Detroit and how these same business principles can work for towns in Oklahoma.
