NOW, THEREFORE, RUS and the Oklahoma SHPO agree that this undertaking shall be implemented in accordance with the following stipulations in order to take into account the effect of the undertaking on historic properties.

STIPULATIONS

RUS shall ensure that the following stipulations are carried out.

I. CONDITIONS

A. Installation of Equipment

1. Any equipment installation on existing towers that is regulated by FCC is subject to review under the terms of the November 10, 2009 Program Comment.
2. For any equipment installation that is not subject to FCC regulation, RUS and the OK SHPO agree that the addition of equipment to existing telecommunications towers will not adversely affect historic properties, because the addition of this equipment will not substantially increase the height of the tower, and these towers already contain such equipment.
3. Subject to the approval of RUS, following execution of this PA, PTC may initiate the installation of equipment on existing telecommunications towers.

B. PTC will not initiate construction of any of the proposed twenty-eight (28) new towers until Section 106 review for that tower has been concluded in accordance with the terms of this PA, and approved by RUS.

C. If PTC initiates any construction prior to fulfilling the terms of this PA for that component of BIP project #1257, RUS will review that action in accordance with 36 CFR § 800.9(c) to determine if Section 110(k) of NHPA is applicable.

II. REPORTING REQUIREMENTS

A. PTC shall provide written documentation to RUS describing the successful conclusion of Section 106 review for each new tower conducted under the terms of the November 10, 2009 Program Comment.

B. RUS will review this documentation, and if it demonstrates that Section 106 has been successfully completed, RUS may authorize construction of that tower.

C. PTC shall report to RUS every four (4) months from the date of execution of this PA until all construction for BIP project #1257 is complete describing the status of Section 106 review for each tower, the status of project construction, including a list of project components where construction has been completed, and any changes to the undertaking that are proposed. PTC will report electronically to Laura.Dean@wdc.usda.gov using the format described in Appendix A.

III. DISPUTE RESOLUTION

- A. Should any signatory or concurring party to this PA object in writing at any time to any actions proposed or the manner in which the terms of this PA are implemented, RUS, within the limits of its authority, shall consult with such party to resolve the objection. If RUS determines that the objection cannot be resolved, that agency will:
1. Forward all documentation relevant to the dispute, including the resolution proposed by the agency to the ACHP. The ACHP shall provide the agency with its advice, pursuant to 36 CFR § 800.2(b)(2), on the resolution of the objection within thirty (30) days of receiving adequate documentation. Prior to reaching a final decision on the dispute, RUS shall prepare a written response that takes into account any timely advice or comments regarding the dispute from the ACHP, signatories and concurring parties, and provide them with a copy of this written response. The agency will then proceed according to its final decision.
 2. The ACHP will notify RUS that it will comment pursuant to 36 CFR § 800.7(c), and proceed to comment. Any ACHP comment provided in response to such a request will be taken into account by the agency in accordance with 36 CFR § 800.7(c)(4).
 3. If the ACHP does not provide its advice regarding the dispute within thirty (30) days, RUS may make a final decision on the dispute and proceed accordingly. Prior to reaching such a final decision, RUS shall prepare a written response that takes into account any timely comments regarding the dispute from the signatories and concurring parties to the PA, and provide them and the ACHP with a copy of such written response.
- B. The responsibility of RUS to carry out all other actions subject to the terms of this PA that are not the subject of the dispute remain unchanged.

IV. TERM OF AGREEMENT

- A. The term of this PA shall be four (4) years from the date of execution by the signatories unless the signatories agree to extend its term. If its stipulations have not been carried out, and prior to work continuing on BIP project #1257, RUS shall either (a) execute another agreement pursuant to 36 CFR § 800.6, or request, take into account and respond to the comments of the ACHP pursuant to 36 CFR § 800.7.
- B. Six (6) months prior to expiration, RUS shall notify the other signatories of the impending expiration. RUS will consult with the other signatories to reconsider the terms of the PA and amend it in accordance with Stipulation V. RUS shall notify the signatories as to the course to be pursued.

V. AMENDMENT

This PA may be amended when such an amendment is agreed to in writing by all signatories. The amendment will be effective on the date it is executed by all of the signatories and filed with ACHP.

VI. TERMINATION

- A. If any signatory to this PA determines that its terms will not, or cannot be carried out, that party shall immediately consult with the other parties to attempt to develop an amendment per Stipulation V. If within thirty (30) days an amendment cannot be reached, any signatory may terminate the PA upon written notification to the other signatories.
- B. Once the PA is terminated, and prior to work continuing on BIP project #1257, RUS must either (a) execute an agreement pursuant to 36 CFR § 800.6, or (b) request, take into account, and respond to the comments of ACHP under 36 CFR § 800.7. RUS shall notify the other signatories as to the course of action it will pursue.

EXECUTION of this PA by RUS and the Oklahoma SHPO, and implementation of its terms evidence that RUS has taken into account the effects of this undertaking on historic properties and afforded ACHP a reasonable opportunity to comment.
