

March 2022

REQUEST FOR PROPOSALS
NATIONAL REGISTER TESTING OF TIPI RING SITES IN CIMARRON
COUNTY, OKLAHOMA

Project No. 22-201

I. INTRODUCTION

The Oklahoma Historical Society, State Historic Preservation Office (OK/SHPO), is soliciting proposals for testing to confirm the National Register of Historic Places eligibility of at least two Tipi Ring sites in the Black Mesa Region of Cimarron County, Oklahoma. These sites, examples of which include 34CI413, 34CI510, and 34CI526, are marked by circular groupings of small boulders or large cobbles which have been tentatively classified as tipi rings.

This project is designed to provide a cost-effective approach for increasing the number of properties in the state documented at the National Register level and to increase the number of properties in the state that can be afforded the benefits of the National Register, a key element in the OKSHPO comprehensive historic preservation planning process. This project will provide limited site testing and evaluation to determine National Register eligibility for properties significant in Archaeology. The results obtained are expected to provide information useful in making management decisions about properties and districts eligible for the National Register of Historic Places.

Additionally, the project results are expected to provide data useful for developing historic contexts, a component of the state's comprehensive preservation planning process. A historic context is an organizational framework that integrates information about related properties based on theme, geographical limits, and chronological period. The historic contexts investigated in the study revolve around historical / archaeological resources located in Oklahoma.

Rationale for the integration of the National Register program into a planning framework and other related historic preservation program areas is presented in the “Secretary Standards and Guidelines for Archaeology and Historic Preservation,” (Federal Register 48 (19C), 44716-44742, Thursday, September 29, 1983) (available online at <http://www.okhistory.org/shpo/rfp.htm>).

The National Register of Historic Places is the catalog of those properties significant in the history and prehistory of the nation, state, and local communities. Through listing in the Register, properties are afforded certain benefits and protection. The overall purpose of this program is to help increase the number of properties eligible for these benefits in the state and to facilitate archaeological resource management.

The sites to be tested and evaluated in this project include sites identified in a previous Historic Preservation Fund (HPF) supported survey of the OKSHPO (34CI510 and 34CI526). These projects documented archaeological sites marked by circular groupings of small boulders or large cobbles, features which have been tentatively classified as tipi rings. The data from the original documentation of these sites are on file at the Oklahoma Archeological Survey (OAS) in Norman. Potential applicants for this project are responsible for familiarizing themselves with that material to aid in their proposal preparation.

The successful applicant for the project will be a Subgrantee of the Oklahoma Historical Society, State Historic Preservation Office, and will be responsible for providing the nonfederal matching share for the effort. An estimated federal share of \$35,000 will be needed for completion of this project. The funding is from the National Park Service, Historic Preservation Fund. This survey project requires a 60/40 matching ratio. The OK/SHPO will provide 60 percent of the total project cost, and the Subgrantee will provide the remaining 40 percent matching share. The Subgrantee must demonstrate in the proposal the ability to provide the necessary nonfederal matching share in accordance with *Guidelines for Subgrantees* (available on the OK/SHPO website at

<http://www.okhistory.org/shpo/rfp.htm>). Applicants must certify that the matching share is available at the time the proposal is submitted.

II. WORK TO BE ACCOMPLISHED

The work to be accomplished includes limited testing and evaluation of at least two Tipi Ring sites, which may include: 34CI413, 34CI510, 34CI526, and the preparation of a report that details the testing and evaluation in sufficient detail to determine eligibility for listing in the National Register of Historic Places for the two to three sites selected located in Cimarron County, Oklahoma.

Site testing (to be described in detail in the proposal) is specifically limited to obtaining only that data necessary for justifying National Register eligibility. Because National Register nominations for these sites will ultimately be completed in accordance with the *Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation*, the *Oklahoma National Register and Request for Formal Determination of Eligibility Manual* and the OKSHPO National Register of Historic Places Nomination and Submittal Requirements (available at <http://www.okhistory.org/shpo/rfp.htm>), the Subgrantee shall present in its final report adequate information to facilitate this effort without additional field investigations or archival research. Therefore, the Subgrantee is responsible for acquiring and utilizing a copy of National Register Bulletin 15, "How to Apply the National Register Criteria for Evaluation" and National Register Bulletin 36, "Guidelines for Evaluating and Registering Archeological Properties."

A. Archaeological Site Testing

The Subgrantee will conduct site testing specifically of at least two Tipi Ring sites, which may include: 34CI413, 34CI510, 34CI526. The investigation will be of sufficient detail and intensity to clearly establish the National Register of Historic Places eligibility. The testing will be conducted in close coordination with the contract manager and the project will be subject to periodic visits by OKSHPO representatives without prior notice. The Subgrantee will keep clear, legible, standard field records available and current for review. The Subgrantee will keep clear, legible, standard field records available and

current for review. The Subgrantee will collect and retain only those artifacts necessary for dating the site and assessing the archeological component or components of the particular site. All collected artifacts will be carefully washed, catalogued, recorded, and stored during the testing program. After analysis and reporting, the artifacts will either be returned to the property owner or be curated at a location agreed upon by the OKSHPO. A notarized statement granting possession of recovered material must be submitted for all collections not returned to the landowner. A preliminary report will be due on the last day of the third month. This report will briefly describe the areas tested, the results obtained, and include a determination of eligibility for the sites selected.

B. Report Preparation

Following completion of fieldwork, the Subgrantee will prepare a written report. The report will address and contain: 1) abstract; 2) introduction; 3) objectives; 4) the site visitation list and the sites investigated; 5) the research design; 6) the methods used; 7) the kinds of materials sought; 8) results; 9) the kinds of archeological materials present in the tested sites; 10) the specific sites that were identified and the categories of information collected; 11) the sites examined that did not contain historic properties; 12) regional environment; 13) sampling strategy; 14) evaluation and discussion of previous work; 15) Results of subsurface testing of the selected archaeological sites to determine National Register eligibility; 16) Updated archaeological site forms for the two to three tested sites; 17) recommendations; 18) a concise, definitive summary; 19) a 1:24,000 scale, 7.5-minute USGS topographic map (in color) with the study area clearly depicted, this map will be on a full 8.5-inch x 11-inch page with a North arrow, scale of the map, name and year of the topographic map as well as the Township, Range and Section of the study area; 20) bibliography of references cited; and 21) appendices that present the detailed information for each tested site necessary for completing a National Register of Historic Places Registration Form (including a narrative description of each site and a narrative statement of significance).

The report will be written in accordance with the style found in *American Antiquity* and/or *American Anthropologist*. The Subgrantee will submit one (1) copy of the

complete report in draft form no later than the last day of the ninth month of the contract. This draft will be edited prior to submission for grammar, punctuation, and clarity. The OKSHPO will review the draft report and provide the Subgrantee a written critique, including a list of changes required in the final report, within thirty (30) days. The Subgrantee will have thirty (30) calendar days to incorporate the OKSHPO comments into the final report and submit three (3) letter-quality, computer printed copies of the final report to the OKSHPO along with one (1) copy with site form(s) keyed to separately packaged original field photo negatives and prints. In addition to the hard copy version, one (1) copy of the final report will be provided on CD, saved in Microsoft Word or Adobe PDF. OKSHPO reserves the right to refuse the final report if it is not of sufficient completeness.

III. QUALIFICATIONS

The Principal Investigator will meet the professional qualifications for prehistoric archeology or historic archaeology listed in 36 CFR 61, "Secretary of the Interior's Standards for Archeology and Historic Preservation" (available online at <http://www.okhistory.org/shpo/rfp.htm>). The proposal shall detail the involvement of the principal investigator in the project. A resume must be provided for primary project personnel.

IV. PROPOSAL SUBMISSION

Individuals interested in participating in this project should submit a complete, professional-quality proposal which includes: 1) a description of the project to be completed; 2) a research design; 3) a work schedule (see format provided at <http://www.okhistory.org/shpo/rfp.htm>); 4) a proposed payment schedule; 5) a designation of the personnel to be involved (provide vitae or resume); 6) a summary of previous experience, as determined by a list of references and completed projects; 7) an itemized budget including salaries, supplies, travel, etc. (**NOTE: Purchase of equipment is not permitted for this project.**); 8) a complete disclosure of the matching share available; 9) organizational DUNS numbers; and 10) a signed non-collusion certification and federal assurances. The submitted proposal should be of

sufficient completeness to allow the OK/SHPO to assess the proposal by the evaluation standards contained in Section V of this RFP. All required documents necessary for inclusion in the proposal are available at <http://www.okhistory.org/shpo/rfp.htm>. Incomplete proposals will not be considered. The proposal must be computer generated. Faxed or emailed proposals will not be accepted. The proposal shall be submitted in hard copy with original signatures.

Only those proposals received by the OK/SHPO no later than 5:00 p.m. on April 8, 2022, will be considered. Project work that will generate costs for reimbursement from the OK/SHPO or that will be counted as nonfederal matching share cannot begin before the effective date of the subgrant agreement. Proposals will be evaluated by the OK/SHPO, and all applicants will be informed of the OK/SHPO decision by **May 6, 2022**. Applicants may be requested to negotiate revisions in the project design, schedule, product and/or cost proposed. The OK/SHPO reserves the right to not award this project.

SUBMIT PROPOSALS TO:

**STATE HISTORIC PRESERVATION OFFICE
OKLAHOMA HISTORICAL SOCIETY
ATTN: LYNDA OZAN, DEPUTY SHPO
800 NAZIH ZUHDI DRIVE
OKLAHOMA CITY, OK 73105**

V. PROPOSAL EVALUATION

Complete proposals received by the deadline cited above will be evaluated by the OK/SHPO standards. The criteria listed on the following pages will be applied to each proposal:

EVALUATION OF PROPOSALS GUIDE FOR ASSIGNING POINTS FOR PROPOSAL RANKING

For those categories in the proposal ranking system that have a possible point range, the following shall be used to assign the points.

ITEM #1: The proposal clearly demonstrates the applicant's understanding of the project work included in the RFP.

<u>POINTS</u>	<u>EVALUATION</u>
20	Clearly demonstrates a complete understanding of the project work.
15	Demonstrates an understanding of the major elements of project work.
10	Demonstrates a minimal understanding of major elements of project work.
5	Demonstrates a poor understanding of the project work.
0	Demonstrates a complete misunderstanding of the project work.

ITEM #2: Principal project personnel must meet the minimum professional qualifications required for the project. For this item the score will either be "10" or "0". There is no range.

ITEM #3: The applicant demonstrates successful experience in carrying out similar types of project work.

<u>POINTS</u>	<u>EVALUATION</u>
20	Demonstrates a great deal of experience in successfully completing this type of project work.
15	Demonstrates successful experience in similar project work.
10	Demonstrates only limited experience in similar project work.
5	Demonstrates experience that could only be considered "similar" in the broadest of interpretations.
0	Demonstrates no experience even remotely related to the project work.

ITEM #4: Understanding of the applicable Secretary of the Interior's Standards and Guidelines is evident.

<u>POINTS</u>	<u>EVALUATION</u>
20	Evidence of thorough understanding of the applicable standards and guidelines.
15	Evidence of understanding of the applicable standards.
10	Evidence of minimal understanding of the applicable standards.

5 Evidence of extremely limited understanding of the applicable standards and guidelines.

0 Evidence of no understanding of the applicable standards and guidelines.

ITEM #5: The Subgrantee is a minority organization or firm or is primarily devoted to serving disabled persons or is owned by a disabled person. For this item the score will either be "10" or "0". There is no range of points.

ITEM #6: The proposal demonstrates the existence of an adequate financial management and accounting system to ensure appropriate expenditure of federal funds. For this item the score will either be "10" or "0". There is no range of points.

ITEM #7: Proposed budget is sufficient to ensure successful completion of the project work, and each cost is reasonable and necessary. The score for this item will be either "10" or "0". There is no range of points.

ITEM #8: On similar projects the applicant performed the work in accordance with the subgrant agreement.

POINTS

EVALUATION

10 For its two (2) most recently completed subgrant projects the applicant met all requirements of the subgrant agreement, including submission of products in accordance with the project schedule, unless the SHPO's approval for an amended project schedule was obtained and adequate justification for any delays was demonstrated. Additionally, the draft products submitted required only a reasonable amount of revision, and final products met the requirements of the subgrant agreement.

0

For its two (2) most recently completed subgrant projects the applicant did not meet all requirements of the subgrant agreement, including submission of products in accordance with the project schedule. The OK/SHPO's records document the applicant's pattern of delinquent progress reports and late submission of draft products without request for extensions and/or the draft products submitted required more than a reasonable amount of revision.

VI. CONTRACTUAL REQUIREMENTS

Federal funds from the Department of the Interior will be utilized as the source of subgrant funding for this project. Any contract awarded for the project described herein will: (1) provide for administrative, contractual, or legal remedies in instances where the contractor violates or breaches contract terms; (2) describe conditions under which the contract may be terminated by default, and conditions of termination because of circumstances beyond the contractor's control; (3) provide for access by the OK/SHPO and the Federal Government, or any of their duly authorized representatives, to records of the contract or records directly related to the contract; (4) require that the contractor maintain all financial records relevant to the project until the OK/SHPO notifies contractor that they can be destroyed; and (5) require compliance with the terms and intent of the Civil Rights Act of 1964. A sample copy of the project is available in *Guidelines for Subgrantees* (<http://www.okhistory.org/shpo/rfp.htm>).

This program receives Federal financial assistance for identification and protection of historic properties. Under Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975, as amended, the U.S. Department of the Interior prohibits discrimination on the basis of race, color, national origin, disability, or age in its federally assisted programs. If you believe you have been discriminated against in any program, activity, or facility as described above, or if you desire further information, please write to:
